

Bay Area
SCIENCE
FESTIVAL
10.23 - 11.01

Presented by:

Human Energy™

BayAreaScience.org

The 4th annual **Bay Area Science Festival** is around the corner!

For 10 days from **October 23rd to November 1st**, the Bay Area will become alive with exciting science & technology activities from Santa Rosa to San Jose. The festival will feature hundreds of hands-on-activities, provocative conversations, electrifying performances, and tours of cutting-edge facilities. Are you ready to **unleash your inner scientist?**

For the complete program schedule visit www.bayareascience.org

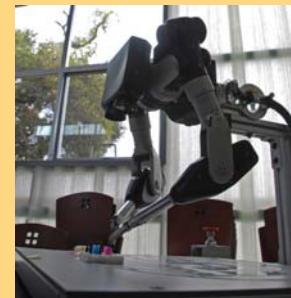

FREE Festival finale: Discovery Days at AT&T Park

Saturday November 1st, 11am - 4pm

AT&T Park will become a **science wonderland** when the Bay Area Science Festival concludes again with this science extravaganza. Come enjoy a day of interactive exhibits, experiments, games, and shows, all meant to entertain and inspire.

This year at AT&T Park:

- Chevron STEM Zone - 4000 square feet on hands-on engineering activities including take home kits!
- Robot Zoo returns to Willie Mays Plaza
- Science by the Bay - a brand new marine science area presented by Oracle
- Science on your Plate - explore AT&T Park's new organic garden with numerous food science and environmental education activities
